

## THE OGLE COUNTY BOARD OF HEALTH

As regulated by Illinois Compiled Statutes, Sec 5/-25001 et seq of Chapter 55, the Ogle County Health Department is governed by a Board of Health. By Statute most health boards have 8 members, but the Board of Health in Ogle County is comprised of 11 members because the TB program and its three member board was combined with the health department in 1998.

Board of Health members serve a three year term, and are appointed by the Ogle County Board. A Board of Health must have at least two physicians and one dentist licensed in Illinois. If possible, one member should be from the mental health field. There should also be one member who is representative from the Ogle County Board. All other members shall be appointed who have a special fitness for the Board of Health.

The Ogle County Board of Health meets six times a year, every other month on the first Tuesday of the month at 7pm at the Health Department office, 907 West Pines Road, Oregon, Illinois.
